Bloomington Gold Corvettes Announces First Ever Sponsor of Gold Certified® Judging

Bloomington, IL, April 10, 2024- Bloomington Gold Corvettes is proud to announce they are continuing their partnership with Corvette Central but in a different capacity for 2024, as Presenting Sponsor of Gold Certified Judging.

A longtime supporter and friend of Bloomington Gold, it is natural for Corvette Central to be the first ever sponsor of Bloomington Gold Certified® Judging. "As America's leading distributor and manufacturer of Corvette parts & accessories since 1975, we felt that Corvette Central was a great fit as presenting sponsor of certification judging", states Guy Larsen, Owner of Bloomington Gold. "Corvette Central has supported Bloomington Gold in a number of capacities over the years and was, interestingly, a swap vendor back in the early years of Bloomington Gold."

With a slogan of "The Caretaker of Legends", Corvette Central is indeed the caretaker to countless Corvettes that have successfully been restored to typical factory production.

Gold Certified Judging will be held on the floor of ISU's basketball court, CEFCU Arena. All levels of judging, Gold Certified®, SURVIVOR and Benchmark will be offered not only in Bloomington this June, but in Dallas in September and Kissimmee FL January 2025. Corvette Central will also be participating at Bloomington Gold this June as a vendor and will be set up in Horton Field House.

Bloomington Gold Corvette Show is the longest running Corvette Show in the country and is returning to Bloomington, IL to celebrate their 52nd event. The 2024 Show will run June 20-22 at Illinois State University. For more information on the Show, see BloomingtonGold.com. Guy Larsen, owner, and President of Bloomington Gold is available for interviews. Please contact Mr. Larsen at Guy@Bloomingtongold.com or 708.906.6000.

Corvette Central, established in 1975, is America's leading distributor and manufacturer of high-quality Corvette Parts & Accessories. Corvette owners turn to them when they need to upgrade, repair, and restore any generation Corvette, including C8's. More info can be found at CorvetteCentral.com.
